

## Product benefits

Norcool supplies two types of cold room doors. D1900 for DIY room and D2000. The D2000 is a stylish cold room door with a fixed frame that can be easily adapted to standard 59.5 x 195 cm front panels to maintain the same style as the rest of the kitchen decor. The D1900 is a traditional cold room door.

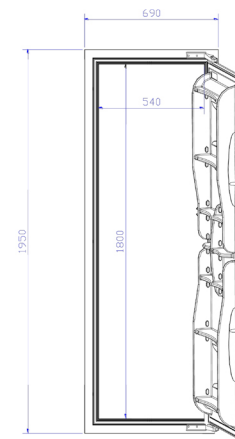

D1900 for DIY room

## Models

1 D1900 door for DIY room  
**Product code: 12662000**

2 D2000 door for integration  
**Product code: 12670000**

D2000 cold room door. The D-2000 has built-in heating cables to prevent condensation. Remember to install an outlet inside the cold room for the heating cable transformer. Install the outlet in the ceiling or on the wall opposite the hinges.
